

# World of Sport – Upper School Topic (Summer Term Topic 2018)

To promote the physical activity and wellbeing, the children will learn the benefits of sporting and active lifestyles. Through the study of international sporting events, the children will look at the countries competing; sportsmanship; equal opportunities and physical challenge. This will encourage children to participate in local sporting events.

**Science** – Everything Changes and the Nature Library - classification and the identification of living things, characteristics of organisms
