

THE WORLD AND BEYOND Upper School Topic Summer Term 2019

Children will broaden their horizons of the wider physical world. They will also undertake an in depth study of the impact of the Railways. Children will gain a greater understanding of the Solar System and its importance for their lives.

Science – The solar system, the movement of the earth, moon and sun in relation to each other.

History – The development of the Railways including how technologies have developed and the position of early railway lines.

Geography – St Lucia, comparing and contrasting exports.

Art – Develop an awareness of different kinds of art through studying the work of Peter Thorpe (Space Art).

Design and Technology – Evaluating, designing and making healthy snacks.

RE – The Holy Spirit and why it is important to Christians.

French – A francophone location (St Lucia)

Computing – Communicating information securely → online-safety

Power of Reading – The Jamie Drake Equation by Christopher Edge

PE – Striking and Fielding Games, Outdoor Adventurous Activities, Athletics

Music – Following the Charanga Music Programme
